

Product Technical Data Sheet

Catalogue Reference	16 mm Solid Brass Stair Rods
Uniclass2015	Pr_35_90_31_83 Stair Rods
General Description	Solid Brass Stair Rod
Collection	The Akeman Collection™
Material	Solid Brass Grade H/H CZ108 BS EN 12164:2018
Diameter	16 mm
Finishes Available & Light Reflective Values	Antique Brass
Fixing	Fix eyes into tread riser directly alongside the edge of the carpet runner leaving a gap of approximately 3mm (1/8"). For concrete stairs use rawl plugs for screw fixings. When fixing to timber stair, direct screw into tread and riser. Note, if wood is particularly hard, it may be required to pilot drill before fixing with screws. Stair rods are for aesthetic purposes only. Always use wooden gripper to fully secure carpet on stairs.
Additional Information	Stair rods are supplied one rod and two hinged fixing eyes per tread. Measuring Tip - Add at least 100 mm (3.9") to runner size.
Handling	Always wear gloves when handling stair rods. Do not handle with bare hands as sweat will cause rapid tarnishing of the finish.
Application	'The Akeman Collection' of stair rods are designed to be fitted as a decorative finish to any stairs.
Suitability	Commercial or domestic locations. Please refer to the CAT product catalogue for details of which finishes are available on which diameter of rods/triangular rods. Antique Brass and Antique Bronze finishes are a chemically applied process and are hand finished with a variance from batch to batch. They are designed to create an aged, unpolished effect.
Post Consumer Recyclability	This product is 100% recyclable at suitable disposal centres.

Made with Precision, Finished with Care
